2.11 Initiative to Establish Community Libraries in Adopted Villages by **Kumaun University**

Recognizing the transformative power of books as lifelong companions and sources of guidance, Vice Chancellor Prof. Diwan S. Rawat has announced a plan to establish community libraries in the five villages adopted by Kumaun University. Prof. Rawat emphasized the significance of books, stating, "Just as the body is empty without a soul, a house feels empty without books."

To implement this vision, a committee will soon be formed, including 5-6 students as co-members. These libraries will be operated by students under the supervision of professors, fostering a collaborative and unique arrangement distinct from the traditional campus library facilities.

Books for these community libraries will be sourced through the 'Donate a Book' campaign, encouraging participation from students, faculty, and the broader community. This campaign is designed to cultivate a spirit of knowledge-sharing and community involvement, while simultaneously enriching the educational resources available in the adopted villages.
